SECTION 2

PERSONAL VALUES ABOUT DYING

Information about your values is important as it is not possible for this document to cover all medical situations. Information about what is important to you may help the person who is making decisions on your behalf when they are speaking to the doctors about your care and treatment.

In this section you can include:

- things that are important to you at the end of life (your beliefs and values)
- issues that worry you, and
- personal, religious or spiritual care you would like to receive when you are dying.

If I am unable to communicate and not expected to get better:

- I would like my pain and comfort managed; and
- when deciding what treatments to give to me or not to give me, I would like the person/people making health decisions for me to understand how the following would make me feel (initial the box that is your choice):

VALUES	Acceptable	Unbearable (I would like treatment discontinued and to be allowed to die a natural death)	Unsure
1. If I can no longer recognise my family and loved ones, I would find life...	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

SECTION 3

DIRECTIONS ABOUT MEDICAL CARE

This section applies to when you are unable to make or communicate decisions about your health care and medical treatment, including CPR.

If you are able to communicate you will be included in decisions about your care.

Cardio Pulmonary Resuscitation (CPR)

CPR refers to medical procedures that may be used to try to start your heart and breathing if your heart or breathing stops. It may involve mouth to mouth resuscitation, very strong pumping on your chest, electric shocks to your heart, medications being injected into your veins and/or a breathing tube being put into your throat.

If I am ill or injured and **not expected to get better**, or if my quality of life is unbearable as indicated in the table on page 3, **if my heart stops and CPR is an option** (please initial one box only):

Please try to restart my heart or breathing (**Attempt CPR**)

OR

Please allow me to die a natural death. Do not try to restart my heart or breathing (**No CPR**)

OTHER MEDICAL TREATMENTS

If I am ill or injured and **not expected to get better**, or if my quality of life is unbearable as indicated in the table on page 3, **I DO NOT WANT TO HAVE** the following medical treatments (initial the box/boxes that are your choice):

Artificial ventilation (also called life support, breathing machine)
